To whom it may concern,

I am writing to put forward my nomination for CBM Computers to be considered for the top award in the "Excellence in Products/Service" category for 2012.

We are a Sydney based Solutions Fulfilment provider that depends on contractors such as CBM to represent us in the field. Our business involves the storage, delivery and installation of printers, photocopiers and other electronic equipment through-out Australia and we rely on businesses like CBM to provide professional, reliable services at a reasonable rate.

For the past 6 years I have had the pleasure of dealing with Nasser and his trusty team at CBM. In our business we have demanding customers, many times with unrealistic expectations and every time the staff and CBM have stepped up to the plate and move mountains for us.

Their service has always reflected well on us as a whole and it is a breath of fresh air to be able to rely on CBM to perform our work to the high standards that our customers expect.

We use CBM for all of our work within a 150km radius of Dubbo, knowing that his travel rates are reasonable and well worth the travel costs as we know the job will be done properly and professionally the first time, every time.

Many thanks for giving CBM the opportunity to be rewarded for all the hard work and commitment that they have provided to customers like myself.

Kind regards,

Jeff Hill

A handwritten signature in black ink, appearing to read 'J Hill', with a stylized flourish extending from the end.
